Huangshi Mineral & Fossil Fair

Nov. 01 - 05, 2017

China (Huangshi) Conference on Geoscience Popularization

Nov. 01 - 04, 2017

Dear Exhibitors, Dear Visitors;

Huangshi International Mineral, Gem and Fossil Show and is approaching very soon and I am writing to remind you of this most important show in China if you have not yet reserved your show booths. We still have few booths available.

Where is Huangshi?

Huangshi Mineral and Fossil Fair will be held in Huangshi Mineral Expo Park at the beautiful lakeside of a new CBD between Huangshi downtown and Daye city. Huangshi is a 2.6-Million-population city of Hubei Province located in Central East China, just 45 minutes away by train from the megacity Wuhan (12 million people). Huangshi is also the mining center of China with over 3,000 years mining history and over 20 types of world-class minerals have been found there, including Innesite, Hubeite, twin amethyst and gemmy calcite etc..

What advantages do we have?

- No worry for visa application and shipment importation, because it is organized by both central and local governments. We do all for you!
- 100% import tax-free and VAT free, government will pay them for you too.
- Directly shipping to the fair by waterway, by air and even by train from Europe.
- Lower show fees with excellent booth choices.
- Full services including hotel booking, free bus and English-speaking helpers.
- 30 million people in surround areas within one-hour-drive distance.
- A huge number of buyers and visitors from all over the world will be brought by the government-hosted China Conference on Geo-Education and Geo-Tourism Conference held at the same time, including **VIPs from 300+ Natural History/Geology Museums, 177 Geo-educational bases, over 60 fossil localities and hundreds of galleries/exhibition centers of geoparks and mining -parks.**
- Over 300 dealers from all over the world.

How is the exhibition venue?

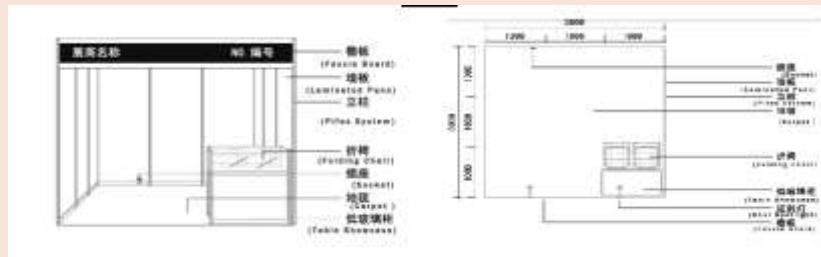

Totally, there are 100 thousand square meters of exhibitions within 25 buildings, including several mineral and fossil museums, temporary stone exhibitions and mineral shops, the biggest mineral exhibition and trading center in China! The park opens to the publics and tourists every day.

The 2nd international mineral trading fair will be held mainly in the building #1 and #2 with about 300 booths. In September 2016, the first mineral fair was very successfully held here too, which broken several records of the mineral world.

What kind of booth available?

Type	Size	Price (USD)	Description
Standard Booth One sides open	3x3 m, 9 sqm	\$600/booth	Three sides partition boards, Name fascia; one table showcase, one folded chairs & two short-armed spotlights
